**Board nominations, 2016**

**Nominee**

Name	Alexandre Manuel Ribeiro Matos
E-mail	alexandrematos@mac.com
ICOM number	41998 PT
Signature	

**Candidate for Ordinary Member**

**Statement by nominee**

Since 1996 I've been working in the museum documentation sector. First in a Portuguese Regional Museum and afterwards in a company that develops CMS for museums, local and regional authorities, universities and many other institutions that have some kind of responsibility in the Portuguese heritage sector, that helped me to know quite well the current needs of museum documentation in Portugal. Alongside I've developed an academic research curriculum in the museum studies department of Porto University where I've concluded my Master (2007) and PhD (2013) in Museology and where I'm now Affiliated Professor. I was also involved with the Portuguese translation of SPECTRUM.

I'm a ICOM/CIDOC member since 2004 and if chosen as a board member I intend to work primarily on the propagation of CIDOC's work and activities in Portugal and Portuguese Spoken Countries in order to expand the CIDOC influence and good practices in those nations and also I intend to collaborate with the committee to deliver comprehensive material about documentation for the museum community. I believe that documentation must be the foundation that support other museum tasks and that we need to work with other committees, communities (libraries and archives) and cultures to achieve CIDOC objectives to deliver advices, good practices and development for the museum documentation sector.
